CAMPBELL AS AN INDEPENDENT TOWN IS ACKNOWLEDGED SUPERIOR

Description of the Orchard City

The Many Advantages of City Convenience Combined with Country Life

Lies 50 miles south of San Francisco, on the Santa Cruz Division of the Southern Pacific Railway, and is the central point of the most fruitful, diversified and scenic section of the famous Santa Clara Valley. Superb electric car service places it within but a few minutes' ride of San Jose, the metropolis of the valley, Los Gatos, the City of the foothills, Congress Springs, the medicinal village, of which waters is unexcelled; Saratoga another beautiful foothill city, and as you ride past and through the thousands of orchard and vineyard homes, and merge into the picturesque canyons of the foothills of the evergreen Santa Cruz Mountains, you can not exclaim: "This is a godly heritage!"

SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheater is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward, over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and the sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a (third class) postoffice which distributes to 3,000 persons, covering over 50 square miles of orchard homes. There are two churches—Methodist and Congregational, a first-class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools. The Stanford University, with its marvelous architecture, is only 20 miles away.

NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

BUSINESS INTERESTS

Campbell has the largest fruit packing and drying establishment in the world, the best equipped cannery on the coast, catering to the highest class export trade, a fruit syrup establishment, lumber yards, planning mill and stores of all kinds. It also has a weekly newspaper and modern job printing plant. The Bank of Campbell, with individual deposits amounting to a quarter of a million dollars, is a fair indication of the prosperity of the community.

FRUIT CENTER

Campbell is pre-eminently a fruit center, and offers unusual opportunities for profitable investment, whether it be a large commercial orchard, a chicken ranch, or a small orchard home adapted to those who want to earn a few hundred dollars a year to supplement a limited income or annuity. The Campbell fruit district is noted for the quality of its fruit, and for this reason has become a trade center. The man with a few boxes of fruit has the same opportunities for selling his produce as the man with many tons. Our large packing and drying establishments will have their agents at your door before the fruit begins to color.

INTERURBAN CONDITIONS

Campbell is neither urban nor suburban, but is in fact, as well as in name, an Orchard City—a city of orchard homes, with all the conveniences necessary for 20th century comfort. The demand for intelligent labor is increasing every year, and families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE

Acreage can be secured at various prices. Bare land, suitable for chicken ranch, hay, grain or vineyard, can be secured for \$100 per acre. Productive orchards sell for from \$200 to \$500 per acre, depending on the record of the orchard for productiveness. In buying an orchard here you do not buy a "pig in a poke"—facts and figures will be given you, showing what returns can reasonably be expected from your investment.

For literature and particulars address
E. R. KENNEDY
Sec. Campbell Improvement Club.

Rev. Kellogg Transferred

The many friends in Campbell and vicinity, of Rev. J. F. Kellogg, will be sorry to learn that he has been transferred from Campbell to Sisson and Gazette in Shasta County, where Mr. Kellogg was at one time pastor. He will be succeeded here by Rev. G. A. Reeder. The family of Mr. Kellogg will remain in Campbell, as both William and Ruth are in the High School, and the school facilities of Sisson do not take in this feature. We wish to join with the rest of the community in wishing Mr. Kellogg success in his new charge.

Baseball News

The Campbell boys will journey to Palo Alto next Sunday and will play that team. The Palo Alto team and Campbell are running close for second place and an interesting game is looked for.

Campbell is waking up.

Improvement Club Holds Session

Good Attendance. Marks Interest of Businessmen in Town Improvement.

An interesting session of the Campbell Improvement Club was held at the bank building Monday night, at which a good many items of importance were brought up. The meeting was reasonably well attended but if a few more of the businessmen would stir themselves to take an interest in town affairs, more could be accomplished.

The meeting opened at 8:15 with Pres. Sawyer in the chair. Secretary Kennedy read the minutes of the previous meeting which were approved as read. Under the head of Committee Reports, the Interurban Committee stated that they had tried to see Manager Chapin but had been unsuccessful as yet. The committee was granted further time and advised to secure an appointment with Chapin. The secretary reported that he had interviewed the manager of the Farmers' Union Packing Co. in regard to driving up on the sidewalk, who had expressed himself glad that the Improvement Club had come to him direct, and assured the secretary that in future this teams would not drive onto the walk.

The treasurer's report was called for but he was not present. It was moved and seconded that he be requested to report at the next meeting. There was a little discussion as to whether the secretary or the treasurer is supposed to collect dues but no decision was reached.

Under the head of communications, a letter was read from the San Jose Chamber of Commerce, inviting Campbell to join in with them in a Floral Carnival next Spring, and asked the Improvement Club to send a delegation to the meeting of the Chamber of Commerce to be held in San Jose Wednesday night, Sept. 22. A delegation consisting of three members, Messrs. Sawyer, Kennedy and Adams, was appointed. A communication from the California Promotion Committee referring to Typographical Maps of the state of California was read, in which it was stated that these maps could be had for 10¢ per copy. The secretary said that if anyone cared to order a copy he would send in the order. Everyone present ordered a copy.

It was then moved and seconded that a committee of two be appointed to find the assessed valuation of property within a half mile of the bank corners, and the president appointed Messrs. Kennedy and Adams. It was also moved and seconded that the next meeting of the Improvement Club be held in Cleveland's barber shop. The next regular meeting of the Club will be Monday evening Oct. 4th.

Changes In The Service

Train Direct to San Francisco Has Been Added—Sacramento Train Discontinued

A new train schedule went into effect Sunday morning on the S. P., a few changes through Campbell owing to travel to Santa Cruz being lighter in the winter. The train which formerly left here at 8:35 for Sacramento and San Joaquin valley points has been discontinued and one leaving Santa Cruz for San Francisco direct, via Palo Alto, going through here at 7:35 p. m. added. Also the one from Sacramento to Santa Cruz which went through here at 4:55 p. m. has been discontinued and one from San Francisco direct, to Santa Cruz, passing through here at 4:40, added. The evening train to Los Gatos will not go to Santa Cruz Saturday and Sunday nights as formerly, but will lay over at Los Gatos.

SOUTHERN PACIFIC

North Bound Trains	
To Oakland	7:10 a. m.
To Oakland, from Palo Alto	3:21 p. m.
To San Jose	5:45 p. m.
To San Francisco (via Palo Alto)	7:35 p. m.
South Bound Trains	
To Watsonville and Palo Alto via Santa Cruz	7:50 a. m.
To Santa Cruz (from Oakland)	10:35 a. m.
To "San Fran. (flag)"	4:40 p. m.
To Los Gatos daily from Oakland	7:35 p. m.

News That Is Interesting

Items That We Gather from the Doings of Our Fellow Citizens

Mrs. Callfield returned from Capitola Tuesday.

R. K. Thomas has returned from his outing to Pacific Grove.

The Grammar School will play Willow Glen Saturday at baseball.

Charles Berry and Earl Cook are busy constructing their wireless.

Harlow Plimpton spent Saturday in San Francisco on business.

E. R. Kennedy spent Sunday at Pacific Grove attending Conference.

The cannery season is almost over, another week will see the finish.

During Mr. Downton's vacation, Mrs. Waite is delivering mail on his route.

There is a law against riding bicycles on the sidewalks. Do you observe it.

Mrs. J. F. Kellogg and children will occupy the rooms over Preston's store.

Mrs. Mary H. Duncan, from Michigan, is visiting her son John Duncan for the winter.

The Rebekah Lodge will give a dance Friday night September 24th at the I. O. O. F. Hall.

A. Christianson, who recently ran the shoe store here in Campbell, moved his family to East San Jose last week.

Rev. Langley has taken a church at Boulder Creek, but will live here, going there two or three days each week.

Earl Eddlemon and family will leave for Newman, San Joaquin Valley, Saturday to be gone several weeks on a vacation.

Mr. and Mrs. Coates went to Pacific Grove last Saturday, remaining over Sunday to visit friends and attend Conference.

Miss Ora Forbes has given up her position at the telephone office, to accept, we have been told, a life position at some other vocation.

Rev. W. S. Turner, of Spokane, Wash., visited Mr. and Mrs. Coates this week. Rev. Turner is Mrs. Coates' uncle whom she has not seen for nearly 30 years.

Arthur Robinson, who has for some time been with C. H. Whitman, left Wednesday afternoon with his family for Cressy, San Joaquin Valley, where he will make his home.

A. J. Farley, who broke his arm recently while working in College Park, has returned to Campbell. His arm is in a sling and probably will stay there for some weeks, but Mr. Farley is as cheerful as if nothing had happened.

WARNING

The Campbell Improvement Club denounces the practice of riding bicycles on the sidewalks and calls attention to the law that strictly prohibits it.

W. C. T. U.

The regular meeting of the W. C. T. U. will be held with Mrs. Mathews on Wednesday afternoon Sept. 29th at 2:30.

The Waste of Baseballs.

It may possibly look undignified for the owner of a big league club to prosecute patrons who insist on keeping balls fouled into the stands, but the fans who deride the efforts of park policemen to recover these balls have no idea what it costs to furnish this ammunition. In one of the games recently played by Pittsburg the loss amounted to \$42.50, as thirty-four balls were lost. No business man would stand for such a "leakage" as this every day without making some effort to stop it, and that is why the club owners insist on the return of these balls. It's a queer thing that men who would be insulted if taxed with dishonesty and who would not stoop to petty larceny will steal a baseball and then perjure themselves to keep it.

World's Shooting Record Broken. Walter Winans, the American horseman and revolver shot broke the world's record at the running deer target during the rifle shooting competition at Bisley, England. Mr. Winans during the Olympic games last year broke the world's record at shooting at a moving target.

Forest Fires Under Control

Much Valuable Timber Destroyed And Many Mountain Homes Are Devastated.

ALTHOUGH the fires are still burning in the Santa Cruz range of mountains, the danger of spreading has passed unless a wind should spring up again, which is not likely. Owing to a change in the wind some days ago the flames were thrown back onto the burned area, thus saving the large trees deeper in the mountains. In a few places near Almaden the fire broke out on this side of the range, and the flames and smoke were plainly visible from Campbell. Quite a lot of valuable timber has been destroyed by the fires, which were worse this year than former years. At times the whole ridge was covered with light from the many fires, while smoke was so dense here one night that objects a block away were invisible.

FLORAL CARNIVAL

Notwithstanding the fact that the San Jose newspapers did not see fit to mention the fact, the Campbell Improvement Club, in response to an invitation from the San Jose Chamber of Commerce, sent a delegation to the meeting held Wednesday night, which was the only out of town body present and that the editor of the Campbell Interurban Press was the only representative out of town newspaper man present. They were there, showing the progressive spirit of our people who are always ready and willing to help in all county affairs.

If the other towns in the county wake up this will be a success, a wonderful success.

It is the intention to have a floral Carnival of all the Santa Clara County next spring in the City of San Jose, similar to the one held fourteen years ago.

Bush a Sensation.

When one is sizing up the real star and of the baseball season of 1909 it would be well to look carefully over the record of Owen Bush, the sensational little shortstop of the Detroit Americans. Since his debut into fast company Bush has played a sensation-

OWEN BUSH.

al game. In fact, Manager Jennings is of the opinion that in a year or two Owen will be the leading shortstop on Ban Johnson's circuit. He is sure to improve in every respect and if no untimely accident befalls him will make an imperishable name for himself as a great shortstop. The Tigers obtained Bush from Indianapolis last fall.

Will Pack Almost Thousand Tons

Farmers' Educational and Co-operative Union Expect to Do Much Business

THE Campbell Farmers' Union Packing Co. is a scene of activity these days; receiving, grading, packing and shipping prunes. The new crop is coming in and it will not be long before several hundred tons will have been received and graded, ready to be packed and shipped away. The company expects to handle some apricots and peaches this season and in all probability 1000 tons of various dried fruits will be handled through this one packing house. As there are four packing houses in Santa Clara County, there will, in all probability be 2000 tons of dried fruit handled this season, which speaks pretty well for the first season's work, and besides, the prices received thus far are better than

Campbell Boys Defeat Meridian

Walk All Over the Backwoodsmer Who Try to Play Game of Baseball

THE local boys played the team from Meridian Corners Sunday and had an easy time of it. A misleading report of the game was published in one of San Jose's papers which tried to excuse the poor showing of the Meridian aggregation. The fact is that Campbell is too good a team for them and can play ball if they have a mind to. To show how easy it was for our boys it will only be necessary to mention the score, 16 to 6. The Meridian boys played a very faulty game and had it not been for one or two bad plays on Campbell's side, a much larger score would have resulted.

***** those offered by speculators on the outside.

FIRE INSURANCE!! DO NOT LET IT LAPSE!

Keep it placed in the companies that have paid 100 cts on the dollar in all the great fires. E. R. Kennedy has these companies.

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Com- pendious Array.

Passing Events Among Your Neigh- bors Briefly Told in Short, Newsy Paragraphs.

Berkeley.—The City Council passed an ordinance making the sale of cigarettes to youths under 18 years of age illegal.

Los Angeles.—F. H. Moore was taken into custody and charged with begging. In a belt close to his skin there was \$5000 in bills.

San Francisco.—Enormous damage was done last week by forest fires that raged in Napa, Sonoma, Mendocino, Lake and Los Angeles counties. The flames were subdued only after many hard fights.

Stanford University.—Special investigation will be made in Redding as to the injury done to plants in the neighborhood of smelters by R. W. Doane, assistant professor in the bionomics department.

Oakland.—Kept alive by stimulants until after the ceremony, Alfred Py, a wealthy Sunol vineyardist, was married on his deathbed to Anna Le Pleux, the sweetheart of his youth. Py was 63 and the bride 50.

Santa Rosa.—The owners of the Santa Rosa Woolen Mills are about to erect a cold-storage plant upon the site of the mills, near the railroad depot. The woolen mills were destroyed by fire July 31, 1909.

Oakland.—Frances Lea Church, daughter of Mr. and Mrs. F. S. Church, and who when born weighed but one and one-half pounds, died six days later at the Fabiola Hospital. The child had not sufficient strength to survive an infantile disease with which she was afflicted.

San Francisco.—Dr. John J. Arberry of the firm of Dr. Taylor & Co., one of the army of "specialists" in this city, has been held for trial on the charge of obtaining money under false pretenses. The accusation was that Arberry charged an ignorant man \$210 for pretending to cure an incurable disease.

San Francisco.—Domenico Balzarini, who was injured in a trolley accident three months ago at Sixteenth and Mission streets, was offered \$2,500 as a compromise, but he preferred to carry the case into court. He sued for \$10,000, but a jury in Judge Murasky's division gave him nothing after ten minutes' deliberation.

Mill Valley.—Forty-two members of the Association of Veterans of the Mexican War held a banquet and reunion at the tavern on Mount Tamalpais a few days ago, and with toasts, stories and recollections of the past, together with the booming of a real cannon, the aged heroes lived over again the battles they fought in 1846-7.

Seattle, Wash.—It was announced a few days ago by the Chamber of Commerce that orders for two cargoes of Puget sound lumber for Japan would soon be placed as a result of the visit of the Japanese trade commissioners. It is expected that the wood pipe factories of Oregon and Washington will be deluged with orders as a result of the investigations made by the municipal experts who accompanied the party.

Phoenix, Ariz.—Four elephants belonging to a traveling show escaped on the desert while they were being walked from Maricopa to Phoenix. A few miles from Phoenix the herd stampeded while passing a hacienda, broke down fences and charged an adobe house in which were a Mexican woman and her six children. The woman fell in a faint. The beasts were unable to gain entrance through the small door of the place. The keepers subdued them at length.

San Francisco.—By the Agricultural Appropriation Act of May, 1908, nearly \$200,000 has been added to the public school and public roads fund of California for the last fiscal year. The act decrees that 25 per cent of all money received from national forest reserves shall be paid over to the State in which the reserve is situated for the benefit of the schools and roads of the county in which the reserve is situated. California's share for the last year is \$191,438.69.

GOVERNOR URGES SUPPORT OF FARM LAND CONGRESS

Believes Meeting in Chicago Will Be of
Great Benefit to California.

San Francisco.—Governor Gillett has been made a member of the Honorable Advisory Committee of the National Farm Land Congress, which is to be held in Chicago in November. He will appoint delegates to the congress to represent the farm land interests of California. The Governor is enthusiastically supporting the Congress.

The California Promotion Committee is seconding the Governor. Through its colonization committee it intends taking part in the Congress. The promotion committee has in preparation a comprehensive statement of the farm land resources and opportunities in California, which is to be placed before the public in connection with the National Farm Land Congress.

"I think that California ought to do all that it can to make the National Farm Land Congress a success," writes Governor Gillett, "because out of it our State will get as much advertising as any State in the Union."

Leprosy Incurable and Contagious.

Washington.—Virtually admitting the incurability of leprosy, declaring that the disease is contagious from person to person; that every country in whatever latitude should isolate those suffering from the disease; that children of leprosy parents should be separated from them at the earliest possible moment, and that leprosy should not be allowed in certain trades or occupations, were resolutions adopted by the second international conference on leprosy held in Bergen, Norway.

Is Horse Meat Sold in Oakland?

Oakland.—A delegation from the Butchers' Exchange awaited upon the ordinance and judiciary committee of the City Council and made the complaint that infected beef and diseased horses is being daily offered for sale in the butchers' stalls here, and demanded that an ordinance be passed providing for the office of a meat inspector for the purpose of inspecting the meat and condemning such as he deems unfit for consumption. The council will take action.

More Gold Strikes Around Nome.

Seattle, Wash.—The Innoko and Iditarod stampedes have been the feature of the summer in Alaska gold mining circles, but the Koyukuk district is also making an unusual showing. M. E. Beatty, who arrived from Nome a few days ago, says there is much doing on Wiseman, Nolan and other creeks, and he estimates the output as \$500,000, which, according to population, is about \$5,000 per man.

Dies From Having Teeth Pulled.

Sacramento.—Finding in their verdict that Mrs. Louis Scott of Cosumnes came to her death through the shock following the administration of an anesthetic and the extraction of nineteen teeth, the coroner's jury recommended that the transcript of the inquest be forwarded to the State dental board to take steps enforcing the proper administration of anesthetics by practicing dentists.

Owl and Hawk Friends of Farmer.

Chico.—The owl and the hawk are beneficial to farmers, according to Dr. A. K. Fisher of the government biological survey of the department of agriculture. Fisher is here now making a study of birds and insects of the Sacramento valley. He says that the owl and the hawk both do much good in this valley by destroying gophers and other rodents.

Czar's Health Bad.

St. Petersburg.—According to reports from Sebastopol the Czar's health is very bad. The emperor and empress intend to remain some time in the south, a cruise in the Mediterranean being spoken of. Their majesties are traveling incognito and will probably visit Italy.

French Runner Breaks Records.

Paris.—Louis Orphee, the French runner who has competed a number of times in New York, recently covered the course from Rouen to Paris, 100 kilometers (62 miles), in 8 hours and 2 seconds, beating all records.

Hawaiian Volcano Active.

Honolulu.—The volcano Kilauea is extraordinarily active. Lava is rising fast and is now only 100 feet from the rim of the crater.

Sacramento Wine Honored.

Sacramento.—Sacramento made wine has been awarded six gold medals at the Alaska-Yukon-Pacific exposition at Seattle.

Mrs. Harriman is Now World's Wealthiest Woman

New York.—A hundred brief words, weighted each with approximately \$1,000,000, and containing in their entirety the last testament of E. H. Harriman, make his widow, Mary Averill Harriman, one of the wealthiest women in the world. It perhaps is the briefest will on record for the disposal of an estate of such magnitude. All his property is left to Mrs. Harriman.

Wall street estimates that Mrs. Harriman will inherit in realty and personal property between \$75,000,000 and \$100,000,000. Harriman's private fortune is supposed to have been greater than this by many millions, but there is reason to believe that his other relatives have all been substantially provided for with gifts out of hand and trust funds set aside by Harriman during his lifetime.

On Mrs. Harriman now will rest the management of the forty-three thousand acres of woodland, pasture land and fertile black bottoms in the Ramapo valley, and on Towel hill, the completion of the great house on which Harriman already had lavished two million dollars without living to see it finished, and those plans of public benefaction—parks and forest reservations—which it is known that Harriman cherished, though he makes no mention of them in his will.

If the estate measures up to expect-

ation, Mrs. Harriman is the wealthiest woman in the world. Mrs. Hetty Green's holdings have been estimated at \$40,000,000, those of Mrs. Frederick Courtland Penfield, who was Anne Weightman of Philadelphia, at \$80,000,000, and those of Mrs. Russel Sage at a like amount.

The text of Harriman's will is as follows:

"I, Edward H. Harriman of Arden, in the State of New York, do make, publish and declare this as and for my last will and testament, that is to say:

"I give, devise and bequeath all of my property, real and personal, of every kind and nature, to my wife, Mary W. Harriman, to be hers absolutely and forever, and I do hereby nominate and appoint the said Mary W. Harriman to be the executrix of this will.

"In witness whereof I have hereunto set my hand and seal this eighth day of June, in the year nineteen hundred and three.

"EDWARD H. HARRIMAN."

Harriman, by making no bequests to children or relatives, avoided the large share of the enormous inheritance tax which, under the laws of the State of New York, would otherwise be imposed. Mrs. Harriman's dower rights are subject to no tax whatever and the remaining two-thirds of the estate to a tax of only 1 per cent.

Beautiful Spectacles Planned for Portola Week

San Francisco.—That the citizens of San Francisco are daily becoming more enthusiastic in regard to the Portola festival and more anxious to co-operate with the committee in the work of preparation, the increasing number and size of the subscriptions received by the finance committee attest.

The immense tableaux which are to form a part of the great pageant on the closing day of the festival are for the most part under construction, and many of them are built and ready to be painted. More than 100 actors are being trained by a professional stage manager of high standing, and the program will be complete by the end of the month which remains between now and Portola week.

The decorations and illuminations of the city are now being installed.

The Portola girls' outing party, consisting of the twelve winners in the voting contest who won the trips to the Alaska-Yukon-Pacific exposition, returned last week. Their visit to the exposition was a triumphant one and the official band burst into the popular song, "I Love My Wife, But O You Kid" as soon as the Portola tallyho appeared on the grounds. More than 5,000 people cheered the girls and they made popular in the grounds their yell, "Rah! Rah! Rah! California! San Francisco! Portola!"

A spectacular test of the efficiency of the new fireboats, David Scannel and Dennis Sullivan, will be held on the bay during Portola week. It is planned to have a barge, loaded with oil-soaked lumber, anchored near Goat island, which will be set on fire about 9 o'clock in the evening. After the blaze is well under way the tugs will steam from Harrison street wharf and attack the burning barge with all their pumps. The test will make a spectacle which will interest the inhabitants on both sides of the bay.

Each boat will be capable of discharging twenty-five streams of water simultaneously under a pressure greater than that reached by the present engines, and making the total power displayed in a minute approach that expended in a single discharge of all the guns of a battleship. Samoset tribe, No. 22, Improved Order of Red Men, of Vallejo, is making elaborate preparations to participate in the big night parade to be held in San Francisco Portola week. The tribe will send a delegation of about 300 members arrayed in Indian costumes, and it is very likely that many will be mounted and that a float will be in the division.

Roosevelt's Scheme of Conserva- tion Receives Setback

President Taft has upheld the Secretary of the Interior, Ballinger, in his controversy with Gifford Pinchot of the Reclamation Service, and in doing so has criticized the methods of Pinchot to such an extent that it is expected on the presidential train that he will leave the government service.

In addition, the President ordered the discharge of L. H. Glavis, chief of field division of the general land office. Glavis made the formal charges against Ballinger that Pinchot has talked of in his speeches on the Pacific coast. He is discharged for filing a disingenuous statement unjustly impeaching the official integrity of his superior officers.

The President specifically exoner-

ates Secretary Ballinger from the charge of using his office for personal ends, reiterates his interest in the conservation of natural resources and expresses confidence that Ballinger also has conservation as one of his principal policies. But the President, writing as a lawyer, says that he agrees with the Secretary of the Interior that conservation must be carried on within the law, indicating clearly that in his opinion Pinchot has been going beyond the law in reclamation of land. He says he will ask from congress legislation that will simplify the work of reclamation.

The President's announcement is made in a letter to Secretary Ballinger, which he made public at Albany, N. Y., last week.

Banish Tehama County Farmer for His Deviltry

Red Bluff.—Jesse Heibner, one of the best-known farmers of the Dibble creek district in this county, has been ostracized, and by an order of the Superior Court. Because of constantly recurring trouble between him and various neighbors he had been ordered to leave Dibble Creek forever, and he has returned there to settle his affairs, sell his ranch and leave with his mother. Sheriff Boyd first went to the ranch and removed Heib-

ner's arsenal, consisting of three rifles, two shotguns and smaller weapons. These will be restored to Heibner when he is well out of Dibble Creek, as the residents of that neighborhood have learned to fear him. Recently Heibner was arrested on a charge of insanity because of his numerous acts of deviltry, but the court decided he was sane. Rather than send him to prison he was given this opportunity to behave himself and he willingly accepted the alternative.

WOULD RATHER KEEP HIS KNOB THAN FIND RICH MINE

Filipino Head-Hunters Cause Mining Man
to Give Up Prospecting Trip.

San Francisco.—Because of the hostility of Moros in Mindanao, P. I., Charles D. Ford, a mining man, who is well known in Alaska, gave up an extensive prospecting expedition which he had planned, and returned last week by the Pacific Mail steamer Asia. Ford found that it would be a case of suicide to venture into the wilds and the lure of the gold was not enough to cause him to take the chance. Also, there were three instances during his stay in the island where three miners went forth and never returned, falling at the hands of the head-hunters.

Ford expected to get a military escort from the garrison in Mindanao, but this was refused him. It is said to be even foolhardy for a fair sized squad of soldiers to penetrate into the depths of the island, which is inhabited by 50,000 Moros, who are ever hostile to the white man. Ford says that two white men are killed every week on an average by the boloslingers.

Chinese Fined for Courtesy.

Chicago.—Yee King was fined \$50 and costs for offering Mrs. Goldie Carter the shelter of his umbrella during a rainstorm. The Chinese pleaded that he had been taught by the New York missions to be courteous to white women.

"I always consider it a diversion tending to a breach of the peace when any Chinese accosts a white woman," said Judge Beidler in inflicting the fine. "The Sigel murder never would have occurred if Chinese were not allowed to address white girls."

Inspecting Irrigation Systems.

Modesto.—Alberto Alibaud of the Republic of Chile was here last week representing the Chile Department of Irrigation. He is looking over the various irrigation systems in this country, and expressed his opinion that the system exemplified here is one of the best he has studied. The government in his country is now planning storage reservoirs and the improvement of its canals, and it is for the purpose of getting ideas that he is now in this country.

Scarcity of Racing Auto Drivers.

New York.—Drivers of racing automobiles are so scarce it is likely that a number of well known cars will not be able to compete in automobile racing events scheduled for the near future. Several prominent drivers have withdrawn from the racing track because of the great danger. Competent recruits are difficult to obtain. Crack drivers who are willing to risk their lives command enormous salaries.

Five Years for Stealing 15 Cents.

San Francisco.—A 15 cent theft caused a five years' sentence in Folsom to be passed on John Alenter by Judge Dunne. Alenter is a young man, but so worthless that there appeared to be no possibility for a reformation except through the discipline of prison. The 15 cents was in the purse of Florence Knudson, the complaining witness. Alenter snatched the purse, but was unable to escape.

Fire Hose Routs Suffragettes.

Birmingham.—Premier Asquith a few nights ago addressed a meeting remarkable for the frenzied behavior of suffragettes, who threw toy bombs and wielded axes. Two women climbed to the roof of a building, loosened tiles and bricks with axes and pelted the police below. Several persons were hurt. The suffragettes were dislodged with fire hose.

Tanneries to Resume.

Vallejo.—The two big plants of the Santa Rosa-Vallejo tanning company, located in this city and at Santa Rosa, are to resume work after many months of idleness. S. Davidson, a hide dealer of San Francisco, has offered to finance the company and work will be on a big scale.

In Favor of Good Roads.

San Mateo.—At a meeting of the San Mateo board of trade the movement for improved highways of a permanent character was endorsed, and the appointment of a committee by the supervisors was recommended.

Rebellious Moroccan Put to Death.

Fez.—El Roghi, the rebellious subject of Morocco, who recently was brought here a prisoner in an iron cage, was put to death Sunday.

Tumbler Causes Alarm.

Granada, Spain.—An earthquake occurred here a few days ago, causing great alarm, but so far as is known no damage was done.

PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give
Busy Readers Review of
Week's Happenings.

Summary of News Gathered by Cor-
respondents Located in Every
Quarter of the Globe.

Lisbon.—King Manuel will leave Portugal for England, where he is to visit King Edward, November 20th.

New York.—John Heydler, president of the National League, plans for his organization to have the double umpire system again next season.

St. Petersburg.—A dispatch from Tiflis says that 1,000 Persian brigands are massed on the frontier and are menacing the Russian guards. Reinforcements have been sent.

St. Petersburg.—Premier Stolypin has again sent a circular to the governors general of the district under martial law, instructing them to restrict the application of the death penalty as much as possible.

San Rafael.—The members of the local labor council are making extensive preparations for the tenth annual convention of the State Federation of Labor of California, which will be held here the first week in October.

New York.—The annual Coney Island swimming race for the women's championship of the world and a \$500 gold medal was won by Miss Ethel Byington, an eighteen-year-old Brooklyn girl, who made the distance, 210 yards, in 3 minutes 4 1/2 seconds.

London.—A dispatch to the Daily Telegraph from Copenhagen says that a sensation has been caused in Sweden by the decision of the cabinet to present a bill to parliament to abolish all orders of rank and grades of precedence except among the officers of the army and navy.

New York.—Letters received here from James J. Jeffries, pugilist, announce that he will return to New York about October 1st, and will then complete his arrangements for the match with Johnson. He says he has been much benefited by his sojourn at the foreign baths, and is coming home in a tip-top condition.

San Rafael.—Fire Chief Dan Schneider of the local department received a check for \$125 from W. B. Bradford, president of the Alaska commercial company, in appreciation of the efficient service which the chief and his men performed at the fire which badly damaged the Bradford residence here on September 9.

Galveston, Tex.—Captain Netherton of the British steamship Comedian, arriving in port here, reported that three strong streams of oil are bubbling on the surface of the Gulf of Mexico, 160 miles south of Galveston. The phenomenon was observed by Captain Netherton, August 10th. Soundings showed a depth of 5400 feet.

Boston, Mass.—Because she and her mother, Mrs. Ida C. Jennings, had been kind to an aged man who was an invalid seeking recuperation in Bermuda, Mrs. Ethel M. Bramer of Methuen, Mass., the young bride of an electrician, has fallen heir to \$1,000,000, bequeathed to her by Robert Benjamin Ribstock, the man they befriended.

Stockton.—Stockton's new Young Men's Christian Association building, located at the southwest corner of San Joaquin and Channel streets, is practically completed and in a few weeks will be occupied. After a vigorous effort the sum of \$75,000 was raised, of which \$15,000 was paid for the site. The remainder of the money has been expended in constructing the building.

Lincoln, Neb.—The Lincoln baseball club of the Western League, by defeating Des Moines 3 to 0 in the opening contest of a double-header, tied a world's record. In 1903 the Pittsburgh Pirates, pennant winners in the National League, were the victors in six successive shut-outs. The defeat of Des Moines was the last of a string of victories that made Lincoln equal the record-making achievements of the Pirates.

Chicago.—A sliding scale of penalization for automobile speeders was made effective last week by the board of trustees of Kenilworth, a North Shore suburb. Hereafter any motorist who drives his car through Kenilworth faster than 20 miles an hour and slower than 25 miles an hour will be fined \$1 a mile; that is, he will be fined \$22 for running 22 miles an hour, for example. If the speed is between 25 and 30 miles, the fine will be \$2 a mile. Above 30 miles the minimum fine will be \$100.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. Follow his advice.

We publish our formulas. We banish alcohol from our medicines. We urge you to consult your doctor.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constipation by taking laxative doses of Ayer's Pills.

San Francisco California

Just and Merciful.
If we may judge by an isolated example reported in the Kansas City Journal, little girls are well qualified for jury duty. While the lawyers were arguing the case of little Ezra Moulton, charged with incorrigibility, before the probation officer of the juvenile court of Wyandotte County, the judge invited a bevy of little girls, who had come as witnesses, into his private office.
"Now," began the judge, when the little witnesses were all seated in an expectant circle, "now most of you came here in behalf of the defendant, little Ezra Moulton. I have written my decision on this slip of paper. You will each take one of these slips and write on it your opinion as to what the punishment of Ezra Moulton should be—a good whipping by his mother, or several long years in the house of correction."
When the judge returned to the office, after leaving the jury to meditate a few minutes, he found them all in favor of the whipping.
"That was what I had written," said the judge, triumphantly. "The jury is dismissed."

When We Tackle It in Earnest.
"I have read," said the visiting foreigner, "that when you celebrate your Fourth of July in this country the destruction of life and property in appalling. Don't the people take any interest in bringing about a reform in the manner of observing the day?"
"O, yes," said the native; "we begin a crusade for a safe and sane Fourth the next day after the celebration, and sometimes we keep it up for three or four weeks."

DRIED FRUITS FROM ORGHAK DIRECT TO CONSUMER.
Choice Santa Clara County Prunes, 5c per pound; choice peaches, 6c per pound, in 100-pound lots. Smaller lots 1/2c per pound extra. W. H. WARD, Orchardist, Morgan Hill, California.

After ten years of work a New York banker claims to have perfected a machine which will compute the interest on any sum for any number of days, months or years.

Rich, mellow, perfectly aged in wood and very delicately flavored—Old Gilt Edge Whiskey, rye or bourbon.

So severe are the snow and sleet storms of Silesia that the government, which owns the telephone lines, has the wires taken down each winter and stored away until spring.

How It Came True.
"You can't make me believe," Uncle Abner Jarvis was saying, "that there isn't something in fortune telling." His auditors were grouped round the stove in the corner grocery store. "Ever have any experience with it?" asked one of them.

"That's what I was going to tell you," resumed Uncle Abner. "Once when I was at the county fair I saw a little tent with a sign on the outside of it that said 'Madame Somebody-or-other would tell your fortune for 25 cents. I stepped inside, just for fun. A woman with a thick veil over her face was sitting in a chair on a raised platform. I gave her a quarter, and she looked at my hand. One of the things she told me was that I was going to have a large party at my house in less than a month, and that it would be followed by a calamity. 'I laughed at that. Thinks I to myself, 'We hadn't had any parties of any kind to our house for two years, and I don't reckon we'll have one quite as soon as that.'"

"But it did come true. In about two weeks my wife's Aunt Jane came to visit us, and if you think she ain't a large party you ought to see her. She weighs 287 pounds."
"But how about the calamity?" inquired the man who was sitting on the nail keg, after a long pause.
"Well," said Uncle Abner, slowly, "she broke down our spare bed the first night she slept in it."

A Clear Coast.
Irving was playing "Macbeth," so runs the story in "Impressions of Henry Irving," and he had reached the place where Macbeth orders Banquo's ghost to attend the banquet board.
"Hence, horrible shadow—unreal mockery, hence!" said Irving, in his most tragic tones, and with a convulsive shudder he sank to the ground, drawing his robe about his face.
On Banquo withdrawing, a voice came from high up in the gallery: "It's all right now, 'Enery; 'e's gone."

Hard to Handle.
"How are you going to keep complaints from arising among consumers?"
"I don't know," answered Mr. Dustin Stax. "Consumers are mighty troublesome. Sometimes I think they take advantage of the fact that we can't get along without 'em in our business."

Looking Up.
Stranger—Any improvements going on in your village?
Uncle Welby Gosh—Improvements? Ther' ain't nothin' else goin' on here but improvements, mister. We're layin' plans every minute for a Greater Drearyburst!
—Chicago Tribune.

Dover, England, will have a new harbor, which will be completed in 1910, when it will accommodate fifty men-of-war.

Every Man Read This

This treatment is said to have acquired a wonderful reputation throughout the East, owing to its peculiar propensity to fortify the nerve force and generate health and a consequent personal magnetism, so essential to the happiness of every normal human being. It is claimed to be and is being to those who are physically impaired, gloomy, despondent, nervous and who have trembling of the limbs, dizziness, heart palpitation, cold hands and feet, insomnia, fear without cause, timidity in venturing and general inability to act rationally as others do. Also of vast benefit to writers, professional men, office workers and the victims of society's late hours and over-indulgence in wines, liquors, etc.

By preparing a treatment at home secretly, no one need know of another's trouble, while the ingredients are much used in filling various prescriptions, so that even the purchase of them separately need occasion no timidity.

If the reader decides to try it, get three ounces of ordinary syrup sarsaparilla compound, and one ounce compound fluid balmwort; mix and let stand two hours; then get one ounce compound essence of wild rose and one ounce (not cardamom), mix all together, shake well and take a teaspoonful after each meal and one at night.

This contains no opiates whatever and may also be used by women who suffer with their nerves with absolute certainty of prompt and lasting benefits.

Momentarily Puzzled.
"Where do you scratch your matches?" asked the visitor, looking around.
"Why," stammered the hostess, "my husband always—O, I understand. On the under side of the mantelpiece." —Chicago Tribune.

MAKE YOUR HEADQUARTERS

He Remembered "Rosie."
Oh, how our early days do rise up and sting us now and then! In New York right now there is a very beautiful young woman who has gained much vogue as an artist and an author, also as a wearer of faultless gowns. Just a night or so ago this divinity was supping in a lobster palace of Broadway and was surrounded by admiring friends of both sexes, says the New York Evening Telegram. She was, indeed, a most impressive picture. Diamonds, just enough, not so many as to be ostentatious, flashed here and there; her plumes were long and snowy; her gown was a triumph of Parisian art and the beautiful face, topped by a mass of golden hair, completed an artistic dream.
At a near-by table a bronzed, long-mustached man, with the west stamped indelibly upon his sinewy frame, was dallying with the unaccustomed food. He gazed upon the magnificent creature in plumes and jewels and then strode across the aisle.
"Well, well, well!" he bellowed in a booming bass. "How ye have changed, Rosie, girl! And to think that ye uster run around the mountains out in our country barefoot, no clothes 'ceptin' a little ragged skirt and an old jacket of yer father's, and nuthin' ter eat 'ceptin' wild onions an' dried hawg! Ain't it wonderful to see ye now?"
Was she stung? Well, just a little.

Won't Stand for It in Mexico.
Mexico is one country at least that puts its foot down solidly against the suffragist. Women have one privilege in Mexico, and that is to obey their husbands. The Mexican woman is in even a worse plight than her Serbian sister, who must stand at the side of the road while her lord and master walks by in the middle. It was a great commission on the part of the Mexican government to permit the raising of a monument to Josefa Ortiz de Dominguez, and was made possible only by the fact that it was in her house in Queretaro that the patriots did most of their plotting a century ago for the throwing off of the yoke of Spain. The statue is the only one in Mexico that has been raised to a woman. It stands in the heart of the City of Mexico.

It's Fruity Flavor.
"Old boy, that oration of yours was a peach."
"It wasn't so bad. I had—er—pruned it down till it was just about the right size."

PUTNAM FADELESS DYES
